Wessex Water Services Ltd
2025-26 Indicative Wholesale Charges

Introduction

Our Wholesale Charges document¹ sets out the charges that, in the absence of any contractual agreement, our Licensed Providers must pay for the services we provide in the course of carrying out our water and sewerage undertaker duties.

Ofwat's Wholesale Charging Rules require undertakers to publish their 2025-26 indicative wholesale charges no later than 13 October 2024.

This document sets out our Indicative Wholesale Charges for 2025-26. Indicative charges were reviewed by the Board of Directors in September 2024 based on the best information at the time. We expect to publish our final Wholesale Charges for 2024-25 by 13 January 2025, although this is dependent on the publication of Ofwat's PR24 Final Determination (which will confirm revenue allowances for 2025-26). Ofwat has indicated that this publication may be delayed until early 2025, in which case our wholesale charges would not be confirmed before February 2025. We will keep all stakeholders informed of updates to this timetable.

Our final Wholesale Charges will be updated to reflect the latest available information, including November CPIH, Ofwat's PR24 Final Determination, and any further information received through ongoing stakeholder engagement before their final approval by the Board.

This document sets out:

- Indicative primary charges; and
- Indicative wholesale special agreement information.

In the interests of transparency, we have also published Indicative Wholesale Charges using the standard wholesale schedule template¹.

Bill increases are forecast to be significant in 2025-26. Please see our statement of significant changes for wholesale charges for more information and support¹.

¹ Published on our website here: <https://corporate.wessexwater.co.uk/our-performance/our-charges>

Primary charges

The following schedules set out Wessex Water's Indicative Wholesale Charges for 2025-26.

Table 1-1: Measured potable water

<u>Description</u>	<u>Unit</u>	<u>CMOS Tariff</u>		<u>CMOS Tariff Name</u>	<u>CMOS Charge</u>
